## Reflections

Let's get re-acquainted with some of the Basic Thought forms of *Pure Potential*, which is an infinite source of possible Thoughts.

The Equilateral Triangle represents Creative Thought or Imagination. Focused Imagination forms the different types of Sense, **Static Experience Naming Specific Expressions**, which labels, recognises, and recalls Memory.

The Tetrahedron, a pure expression of focused Creative Thought, represents *Common Sense*, which is a simple recognition of the facts. *Common Logic* forms by twinning two Tetrahedrons to form an external Cube. It becomes a Common Sense Agreement. Common Sense and Common Logic are unbiased forms of Thought that reflect an environmental influence.

The Square represents Intellect, which is receptive and constructive Thought. It takes on board and builds upon concepts. Intellect forms the different types of Feeling, which is an expression of Emotional/Suggestive Intellect, and Logic – **Library Of Growing Intelligent Concepts**, which allows us to relate to and understand the environment and ourselves. Intellect allows us to evolve, Feeling Suggests Behaviour, and Logic categorises Thoughts to organise Memory.

The square-base Pyramid, Intellect-based Sense, or Intellect-based focused Creative Thought, represents Attitude – **Acquired Thought Transmission Initiating Traits Under Direct Expression**. Attitude is the position a body takes in relation to an environment.

The Octahedron, an Attitudinal expression of emotional Intellect, represents Attitudinal Feeling or *Nature*, which is **Normal Attitudinal Thought Under Regulated Expression**. It expresses Attitudinal Behaviour.

The Basic Hexagon represents Love, **Letting Other Vessels Exist**, which creates Reflex Responses or programs through Unconditional Acceptance. It is an Impulsive or spontaneous Thought form. The centre-point Hexagon represents a *Love-based Sense-agreement*, a *Conclusive Agreement* of focused Creative Thought or Imagination, which is Awareness. It is an unconditional acceptance of our environment, which is the SOUL – **State Of Unified Love**.

The Cuboctahedron, formed by Impressions of Common Sense and Attitude, is a construct of emotional Intellect and emotional Love-based Sense-agreements and becomes Self-awareness. It is emotionally Receptive, Constructive, and Reflex Responsive. Self-awareness is a product of the Unconscious or Impersonal Emotional/Suggestive SOUL, which through Intellect, gives us Understanding.

Passion is also a product of the emotional Love-based Sense-agreements of Awareness. It is a **Purpose Activated Sensual State Incurring Opulent Nirvana**. *Nirvana* is a state of Bliss. Therefore, Passion is a construct of the Unconscious or Impersonal Emotional/Suggestive SOUL.

The Octagon is a product of two interactive Squares of Intellect. It is a higher and more complex Intellect, which forms the Experiential Judgement of Morality.

Reason is a product of Physical Love, Physical Intellect, and Mental Intellect. It is Love-regulated Physical and Mental Intellect.

The Dodecagon is a product of two interactive Hexagons of Love, three interactive Squares of Intellect, or four interactive Equilateral Triangles of Creative Thought. It is therefore a higher and more complex form of Love, Intellect, and Imagination, which represents *Synchronicity*. Synchronicity is Receptive, Constructive, Creatively Responsive, and a Universal coordinator. It is a higher and more complex **State Of Unified Love – SOUL**.

In our present state of Consciousness, the Basic forms of Thought become Motive-based, which has a Personal agenda. The Octahedron of *Nature*, a construct of emotional Intellect and physical Creative Thought, forms *Intuition*. The Cube of *Common Logic*, a construct of physical Intellect and mental Creative Thought, takes on the form of *Instinct*. *Reason*, a construct of physical and mental Intellect, and physical Love, takes on the form of *Justice*. The Cuboctahedron of *Self-awareness*, a construct of physical Intellect, physical Creative Thought, emotional Intellect, and emotional Awareness, takes on the form of *Compassion*. *Passion*, a construct of physical Intellect, physical Creative Thought, and emotional Awareness, takes on the role of *Personal Ambition*, which gives Personal agenda-based pleasure and accounts for all Conscious Pleasures that we experience in this Reality.

## Intentions

We are advancing into a higher state of Awareness so we can experience Peace – **Physical Entities Accepting Connected Experience**. Motive or Personal agenda, forming the Criteria for our present Reality, is an unsustainable and unacceptable Reality-base that inadvertently manifests conflict. Moral Synchronicity shall form the Criteria for the new Reality.

How do we achieve these changes? Intuition is the main form of Emotional/Suggestive Guidance within our present Reality. It is a product of the Subconscious Emotional/Suggestive SOUL, created by impressions of Desire or SPIRIT.

Moral Synchronicity is a state of Synchronised Awareness and Morality. When Self-awareness, Passion, the Attitudinal Feeling of Nature, Reason, and Common Logic collaborate, they form the interactive Nature of Virtue, Empathy, and Mutual Respect. This creates an interactive Nature of Virtuous Peace. The Nature of Virtuous Peace is an expression of Attitudinal Behaviour that is Modified and Synchronised by the Unconscious or Impersonal Emotional/Suggestive SOUL.

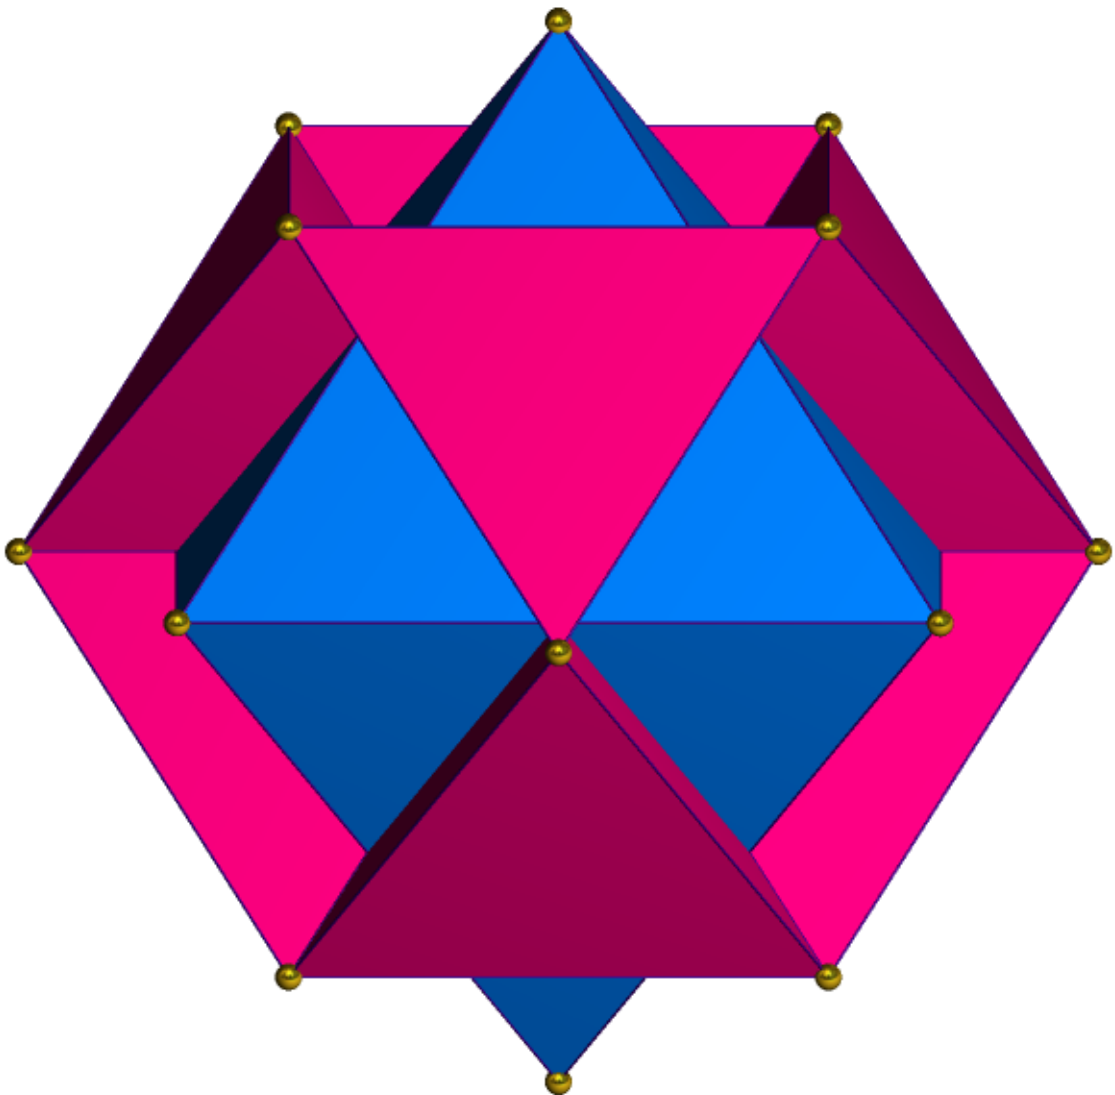

As Unconscious or Impersonal Guidance, Moral Synchronicity will Suggest compatible and Empathetic Attitudinal Behaviour.

## ESSENCE OF MORAL SYNCHRONICITY:

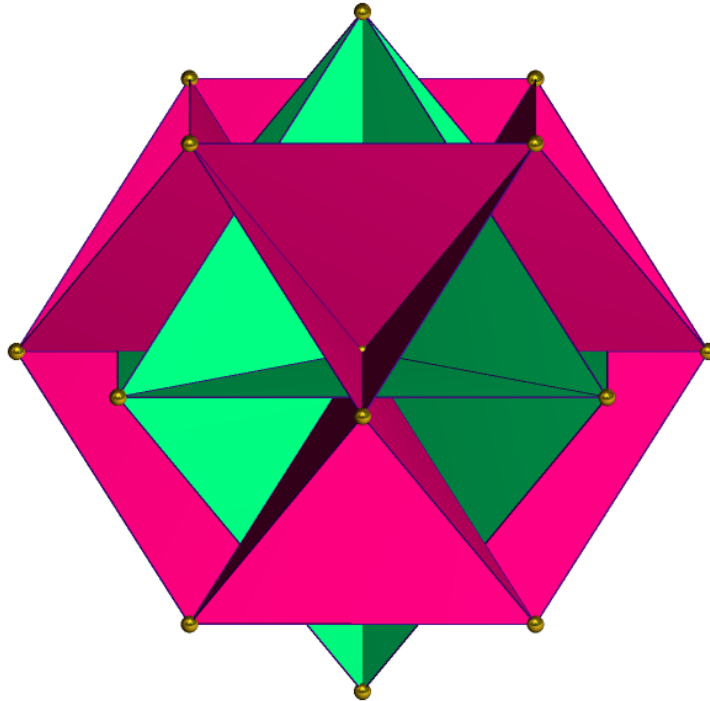

### Virtue-awareness

When Nature and Self-awareness collaborate (shown below), we get Virtue-awareness or Virtuous Self-awareness. The emotional Intellect planes of Self-awareness combine with the emotional Intellect planes of Attitudinal Feeling to form the emotional Octagon planes of Morality. The combination of Attitudinal Feeling and Self-awareness forms a construct of four interactive Octahedrons of Nature that creates Virtue-awareness.

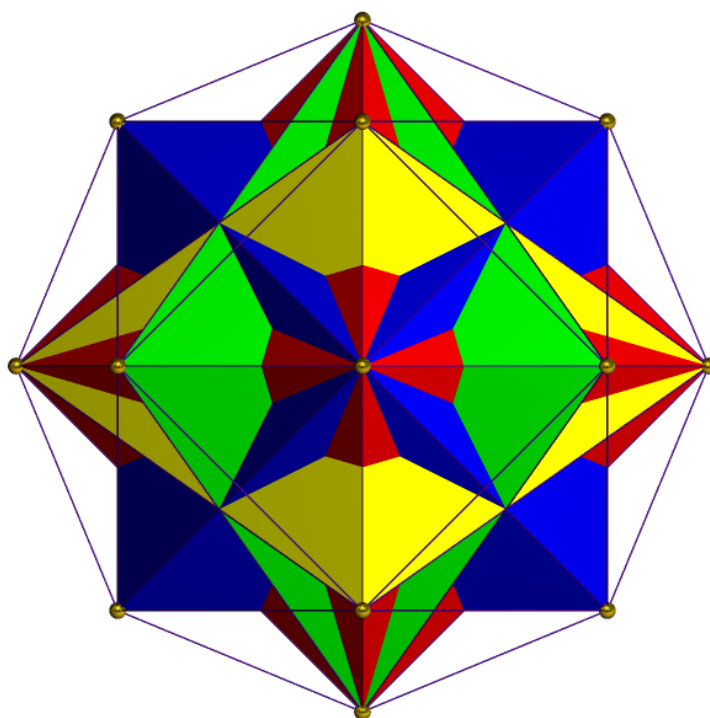

Impressions of Common Sense and Attitude that form Emotional Love-based Sense-agreements of Awareness create Self-awareness. As Virtue-awareness, it becomes an emotional Expression of Attitude regulated by Morality.

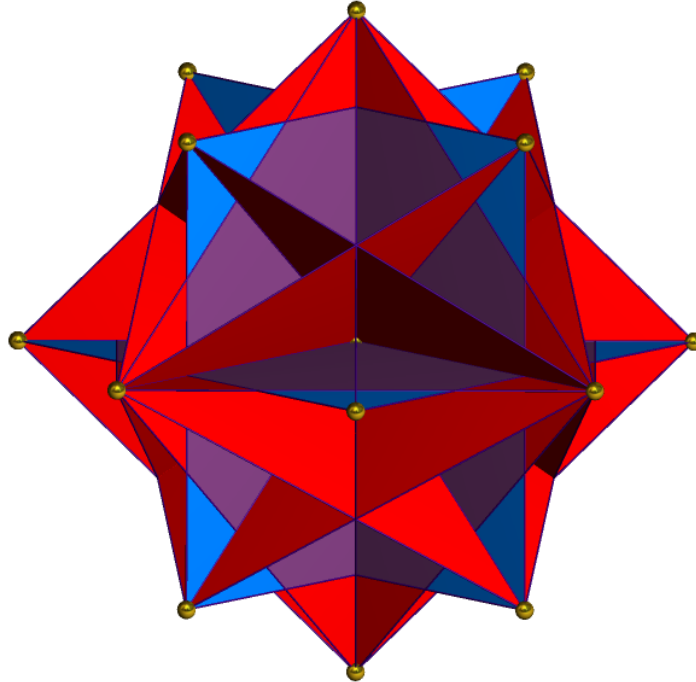

This shows the three emotional Intellect planes of Attitudinal Feeling (in green) and the four emotional Love-based Sense-agreements of Self-awareness (below in pink). It initiates the *Attitudinal Feeling or Nature of Self-awareness*.

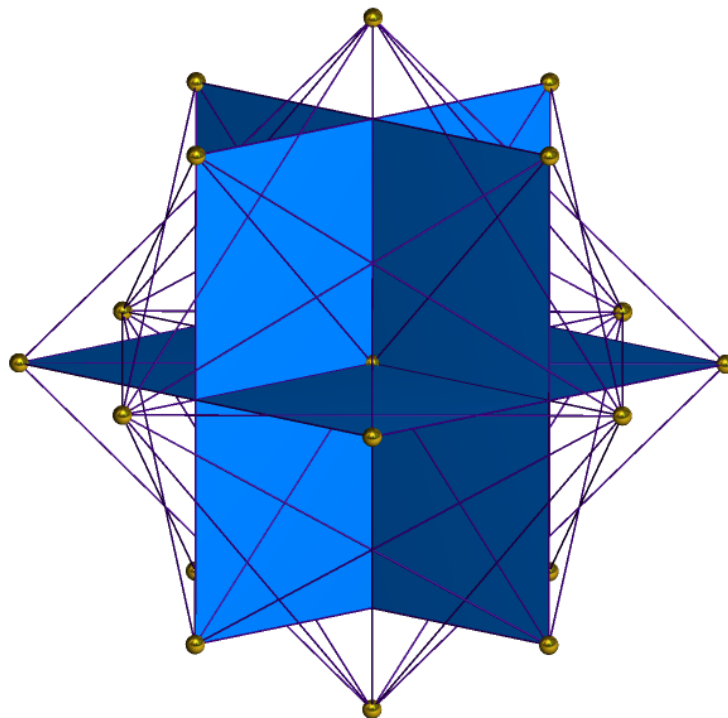

This shows the construct of four Octahedrons of Attitudinal Feeling formed by the fusion of Nature and Self-awareness (below). It forms the interactive *Nature of Virtue-awareness*.

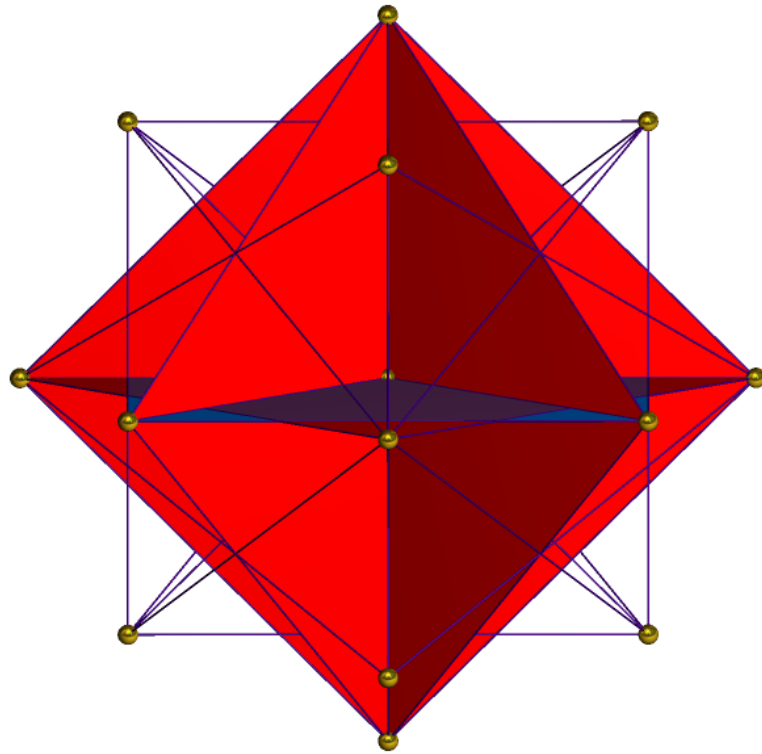

This shows the emotional Intellect planes of the four Nature designs (in red), and the emotional Intellect planes of Self-awareness (in blue). They form three emotional Octagon planes of Morality by the interaction of the planes.

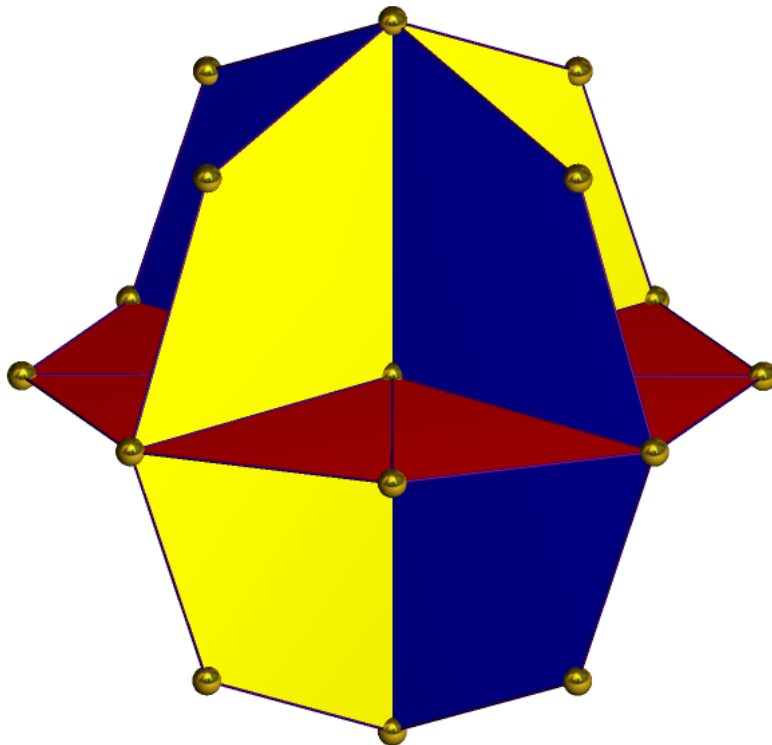

This shows the isolated emotional Intellect planes of Self-awareness that form the Emotional/Suggestive Logic of Self-awareness (below). Emotional/Suggestive Logic is an Agreement of Emotional Intellect.

This shows one of the three Moral-based Attitudinal Feeling designs of *Virtue* that form Virtue-awareness (below). Virtue is an expression of Moral-interactive Attitudinal Behaviour.

This shows the three emotional Octagon planes of Morality that form the bases of *Virtue* (below).

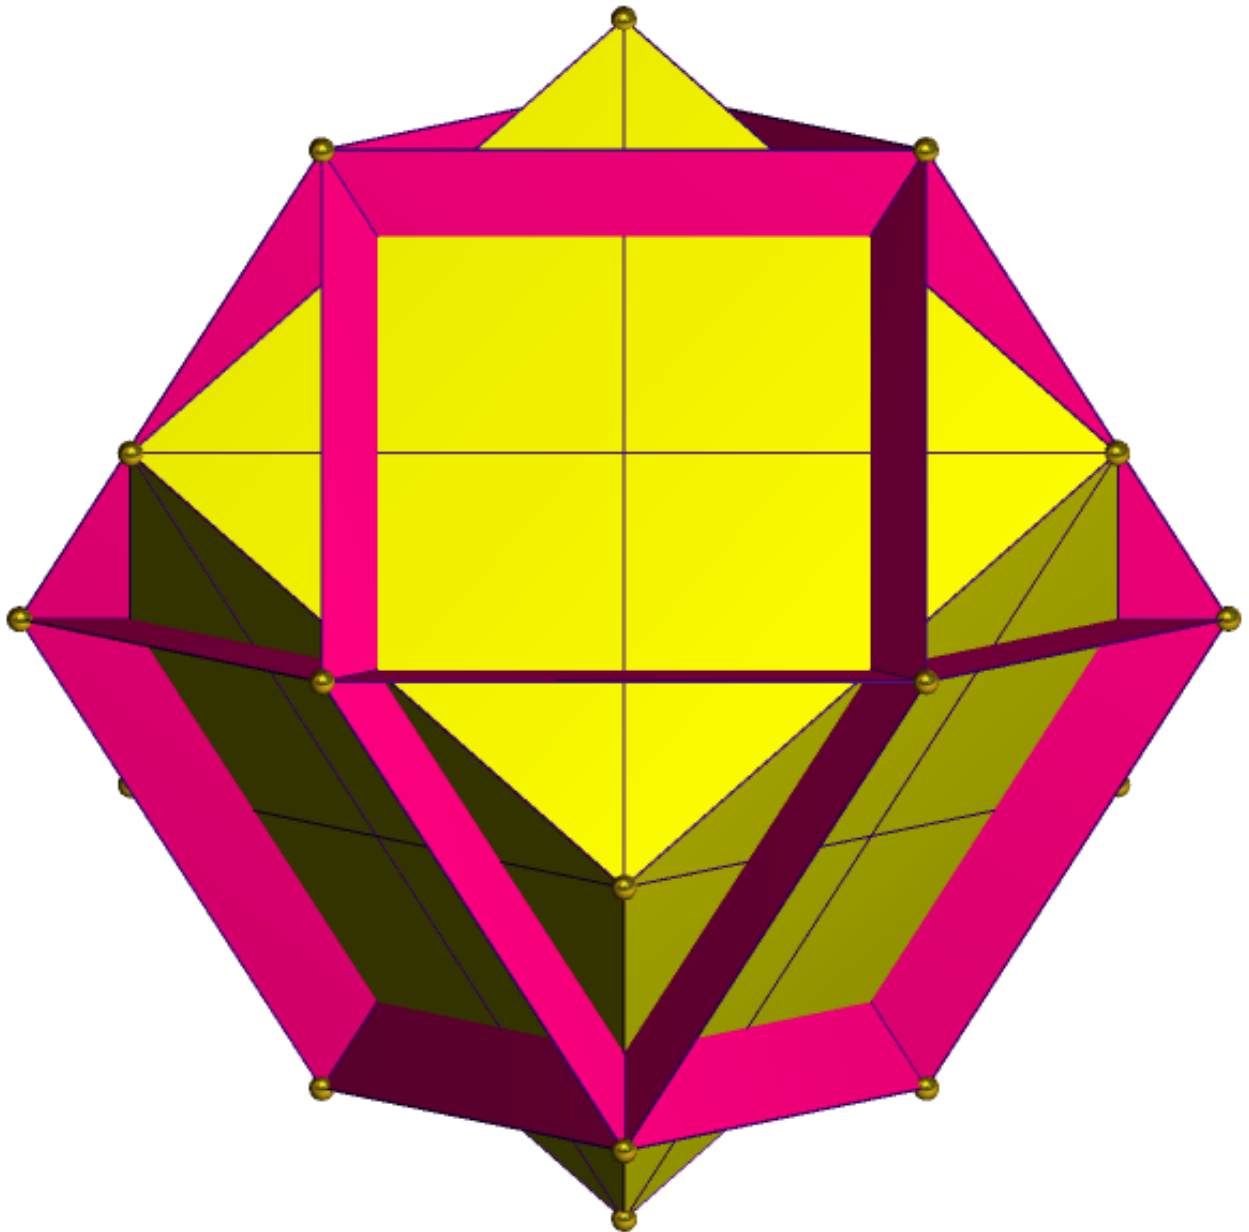

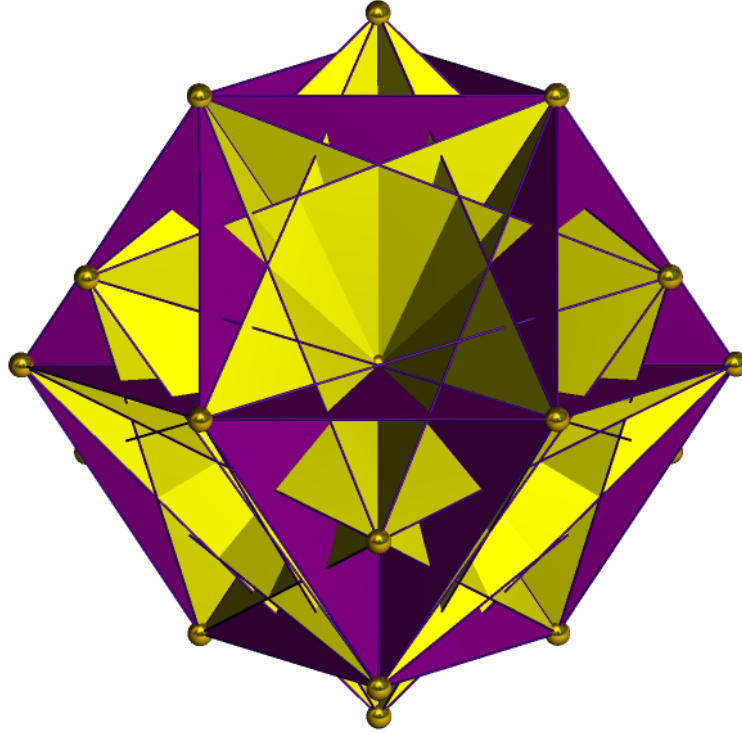

## Self-respect

When *Self-awareness* combines with *Common Logic* (shown below), it becomes a construct of four Love-based or Awareness-based Feeling designs of Respect, which is Feeling of the Unconscious or Impersonal SOUL. It is an expression of Awareness-based Behaviour.

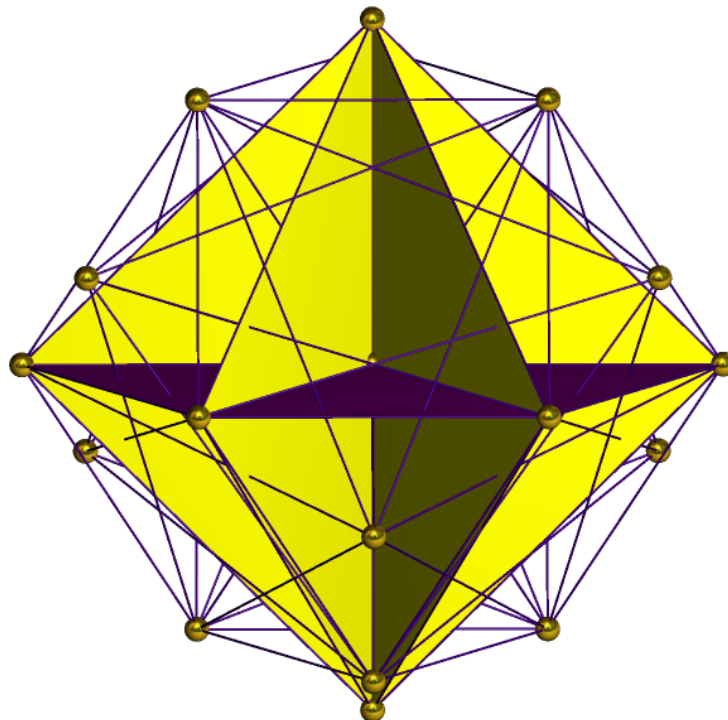

Common Logic, when combined with Self-awareness, forms the emotional Intellect planes of the four *Respect* designs. The Love-based Sense-agreements of Self-awareness form the centre-point Hexagon bases of the four *Respect* designs. A combination of Common Logic and Self-awareness creates *Self-respect*.

This shows the emotional Square planes of Intellect (in yellow) and the emotional Hexagon planes of Self-awareness (in purple) that form the four Love-based or Awareness-based Feeling designs within Self-respect.

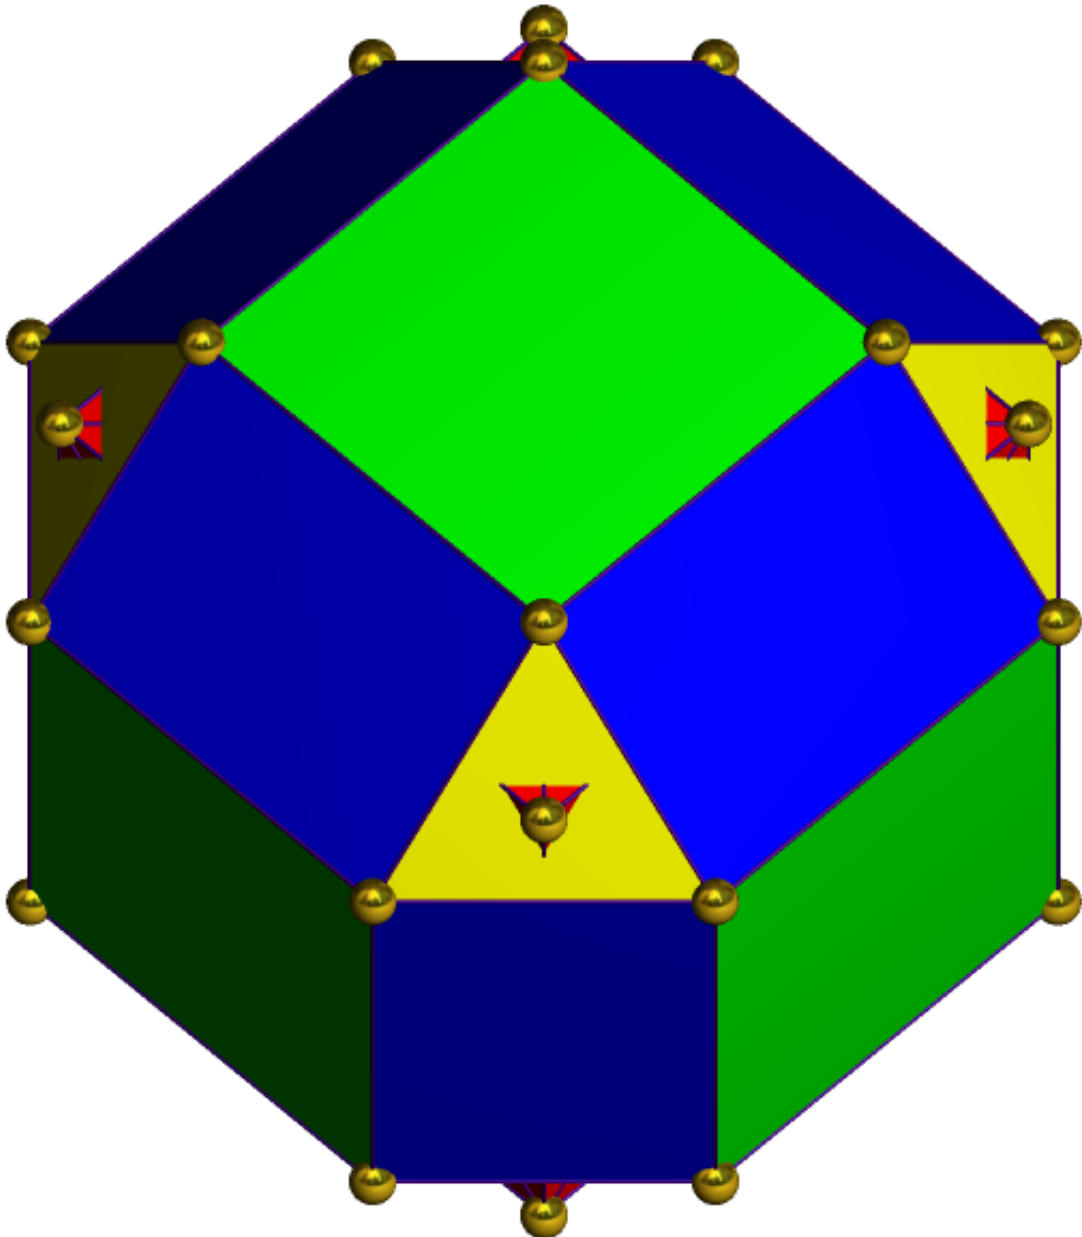

This shows an isolated Love-based or Awareness-based Feeling design of Respect (below), which expresses the Awareness-based Behaviour of the Unconscious or Impersonal SOUL.

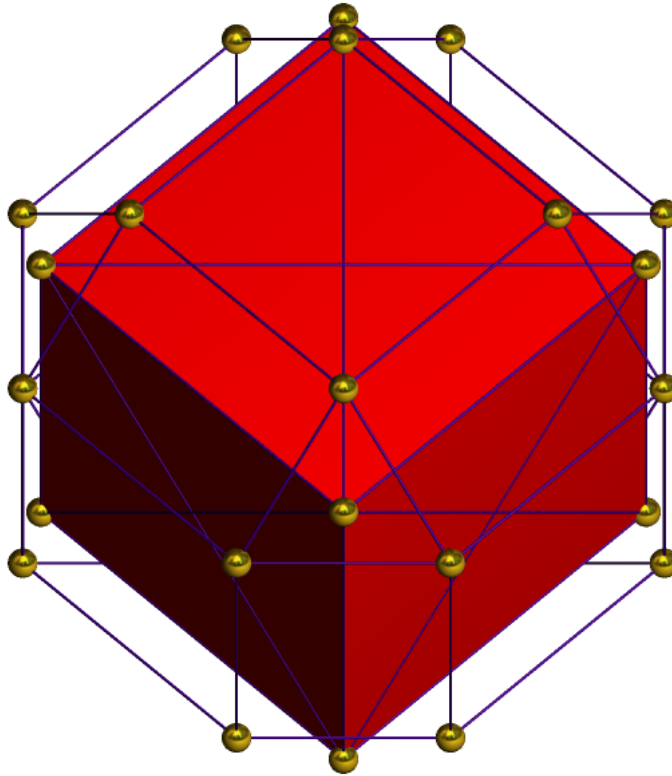

## Passion-respect

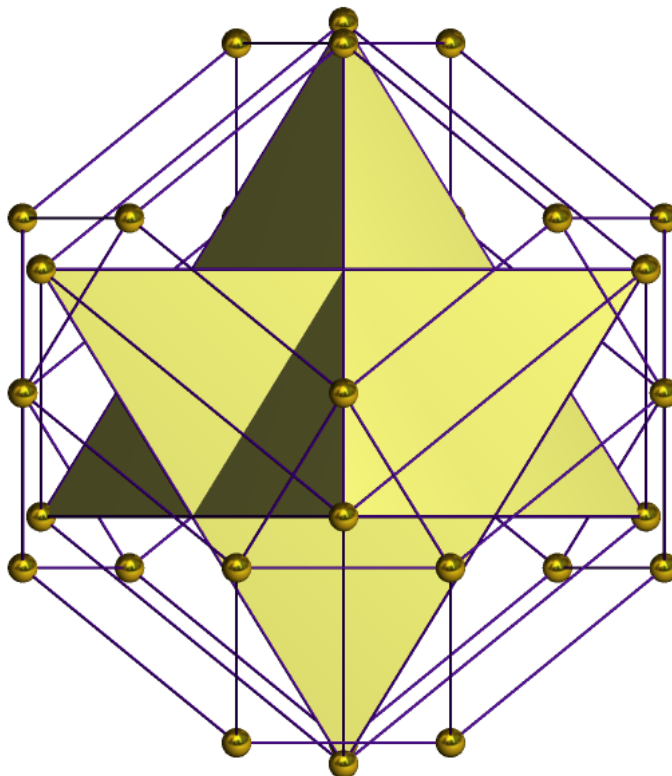

When Passion combines with Common Logic (shown below), it forms Passion-respect. *Passion* produces Pleasure of the Unconscious SOUL. *Common Logic* is a construct of *Common Sense Agreements*. *Passion-respect* is a construct of four Love-based or Awareness-based Feeling designs of *Respect*. Common Logic combined with Passion forms the emotional Intellect planes of *Respect*. The emotional Love-based Sense-agreements of Passion form the bases of the Love-based or Awareness-based Feeling designs of *Respect*. Passion-respect is Respecting what you do. Self-respect is Respecting what you are.

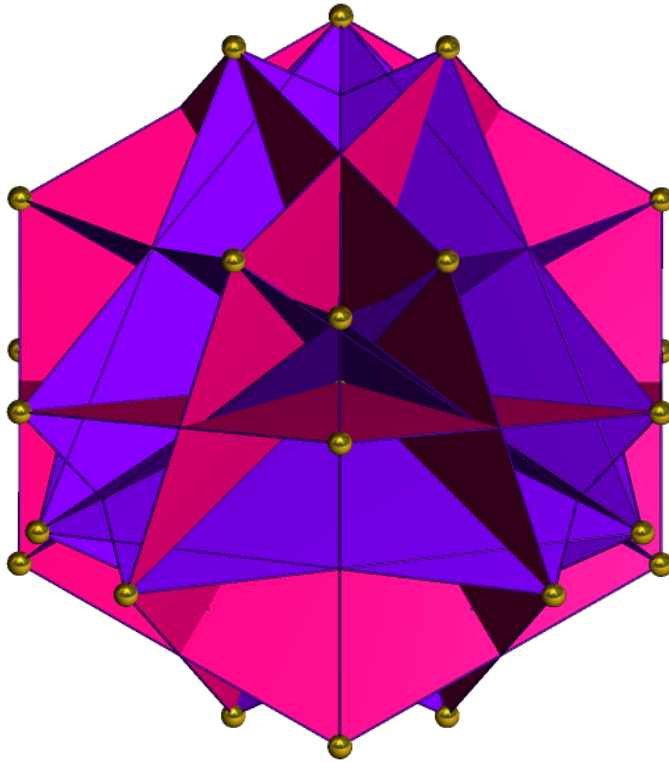

This shows Common Logic within the Passion design (below).

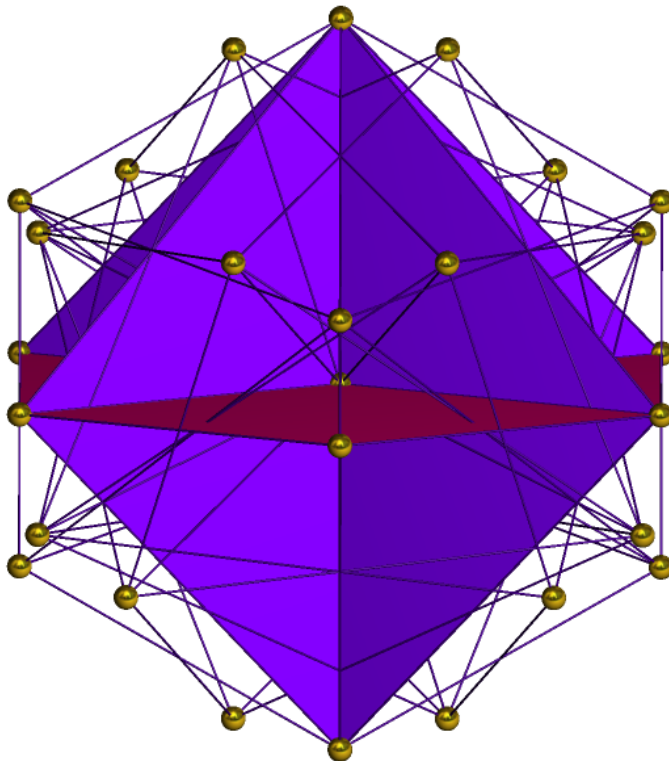

This shows the twin Tetrahedrons of Common Sense that create a Common Sense Agreement of Common Logic (below).

This shows the emotional Intellect planes (in purple) and emotional Love-based Sense-agreements (in pink) that form this construct of Respect.

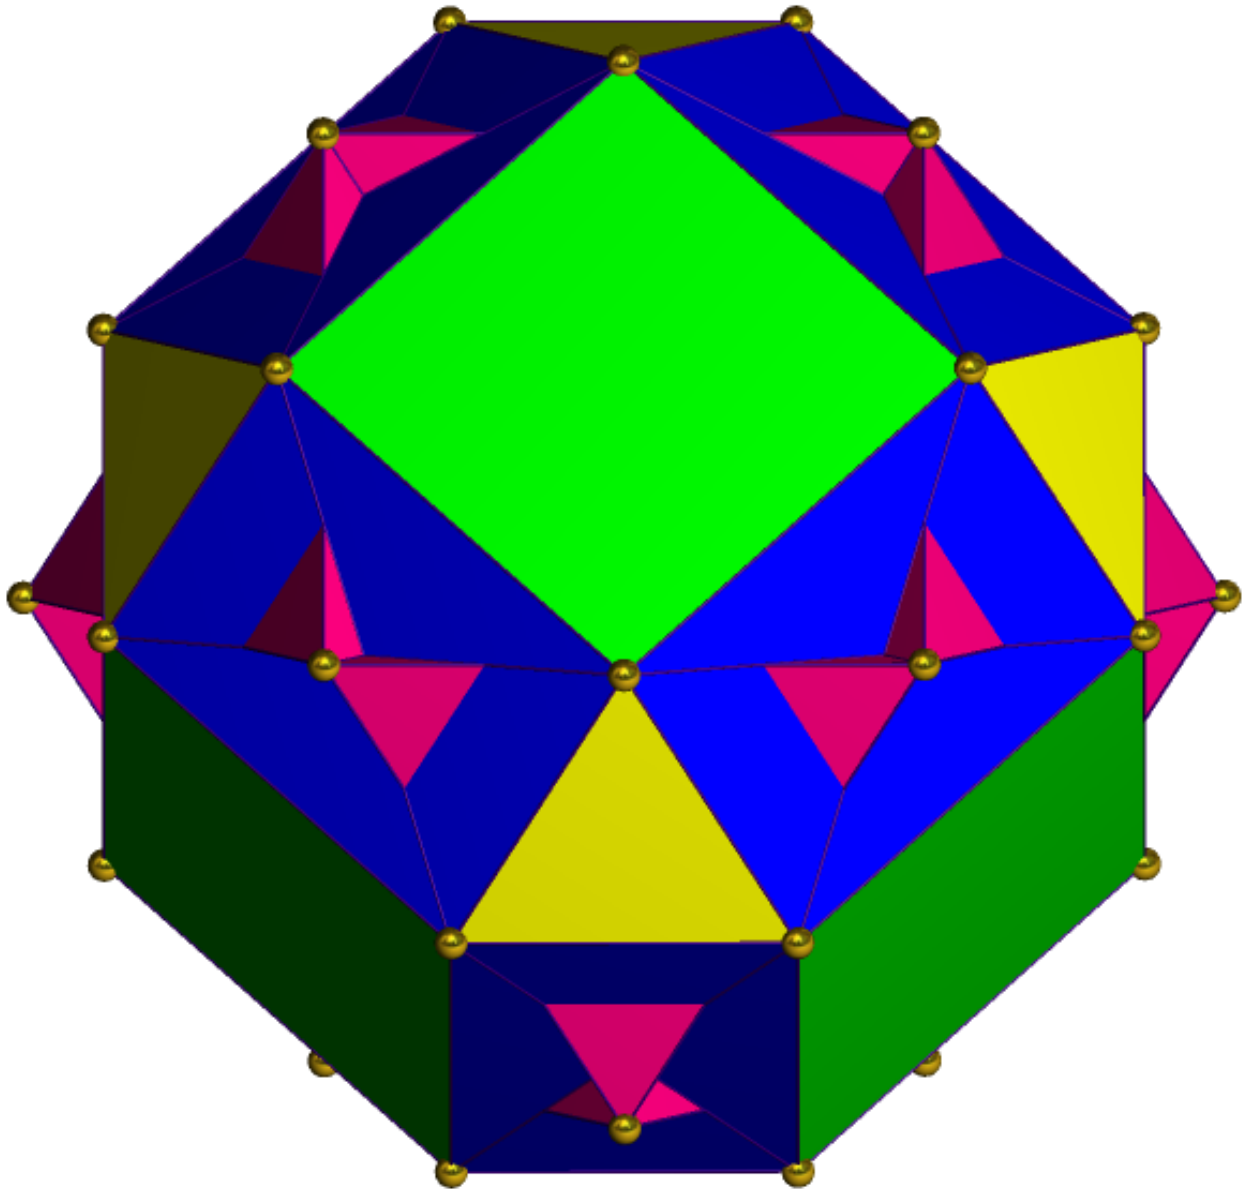

This shows an isolated Love-based or Awareness-based Feeling design of Respect (below).

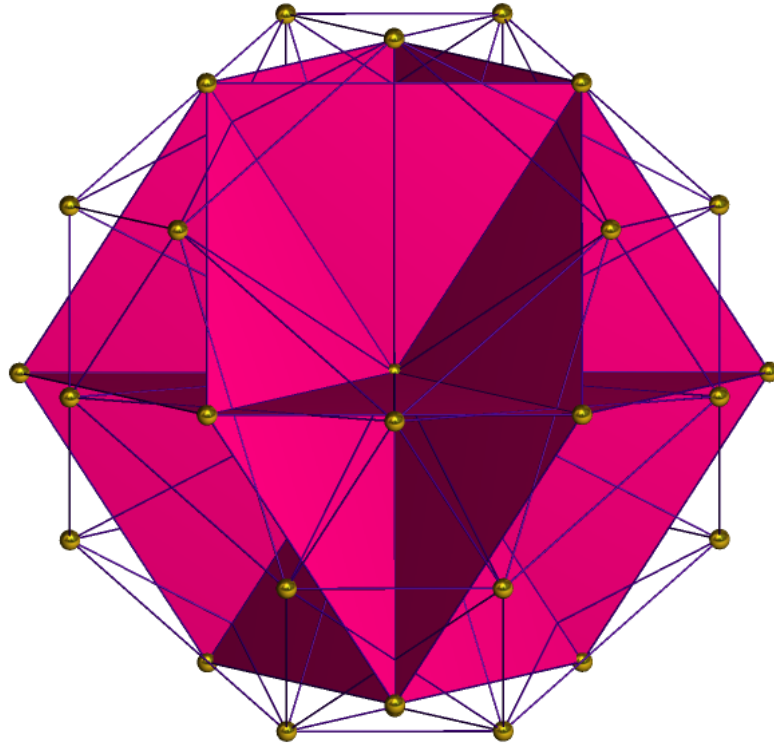

## Passion-awareness

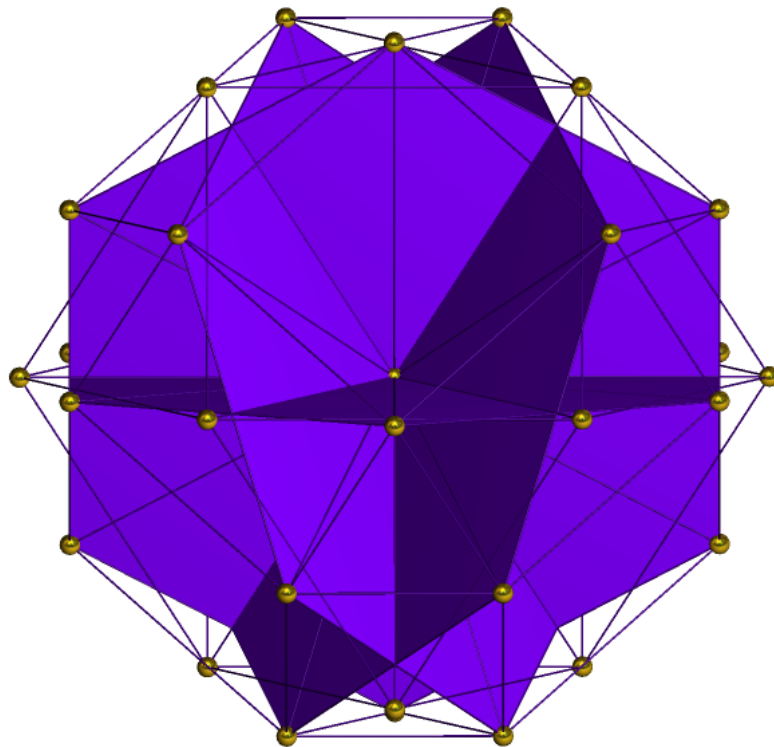

When Passion combines with Self-awareness (shown below), it becomes Passion-awareness. The emotional Love-based Sense-agreements of Passion combine with the emotional Love-based Sense-agreements of Self-awareness to form Dodecagon planes of Emotional/Suggestive *Synchronicity*.

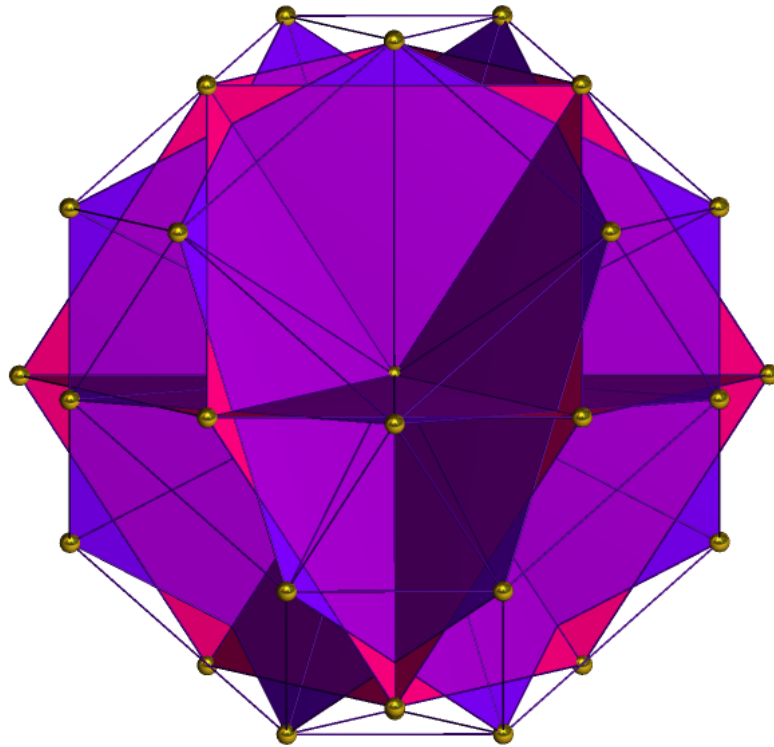

This shows the four emotional Love-based Sense-agreements of Self-awareness (below).

This shows the four emotional Love-based Sense-agreements of Passion (below).

This shows the combined Love-based Sense-agreements that form the Dodecagon planes of Emotional/Suggestive *Synchronicity* (below).

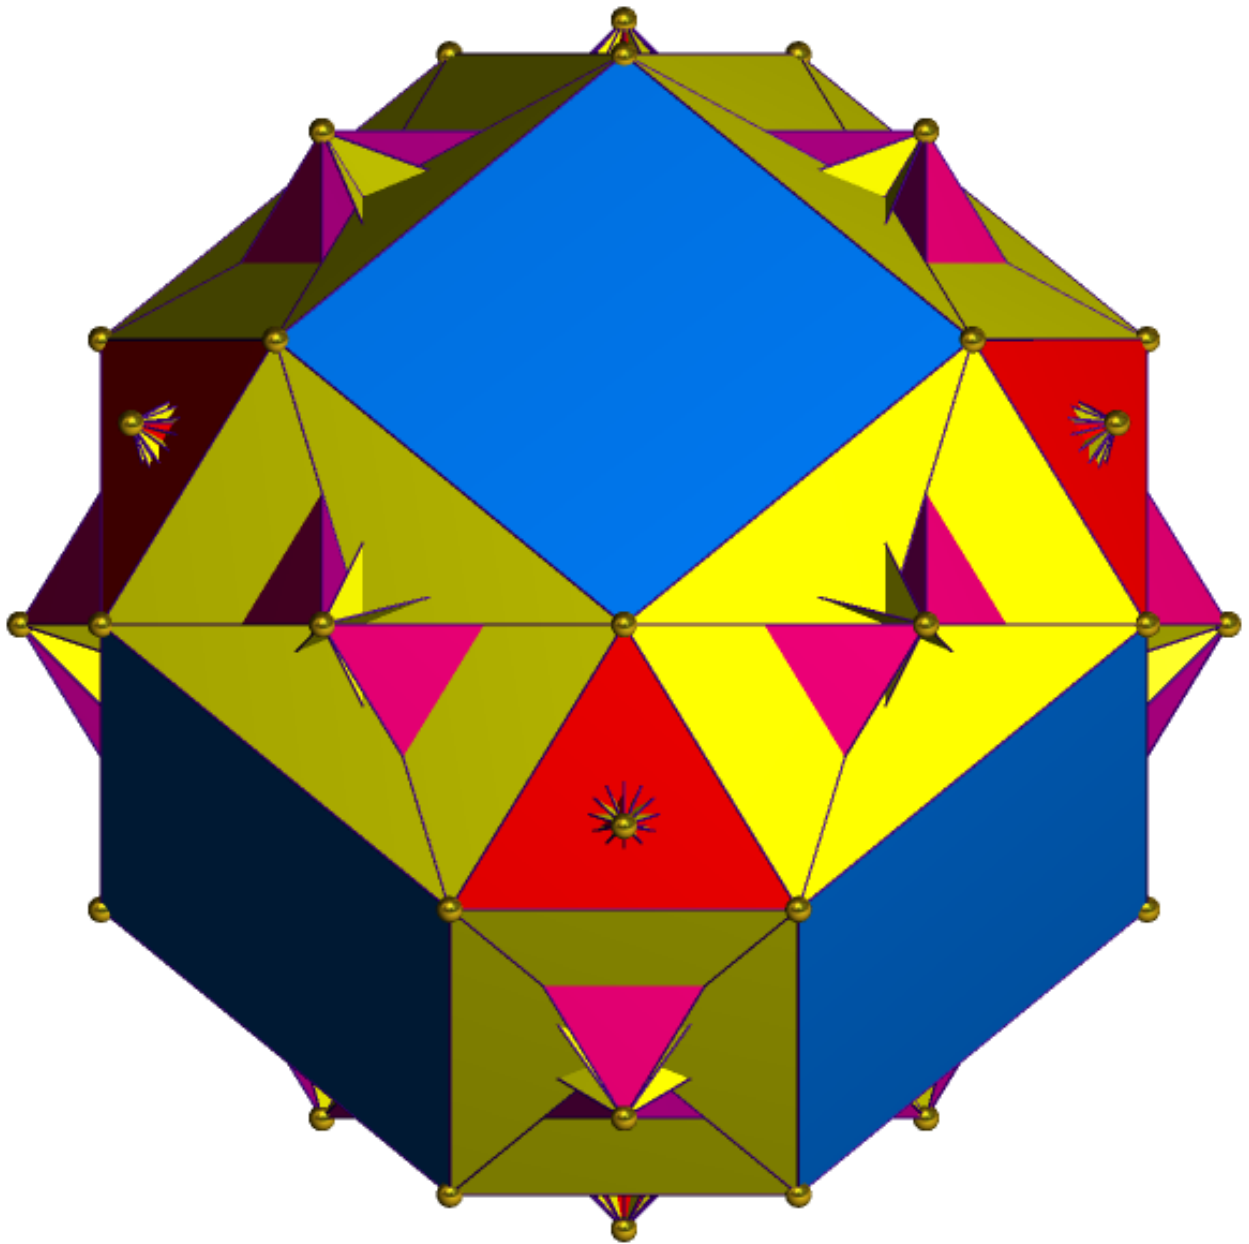

## Peace-awareness

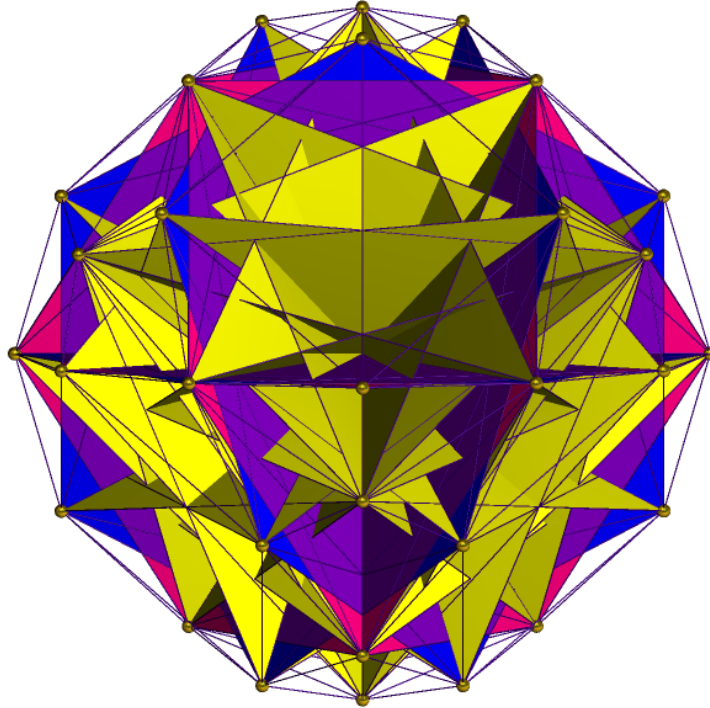

Peace-awareness forms by combining Common Logic, Passion, and Self-awareness.

When we combine Common Logic and Passion-awareness (shown below), it creates Peace-awareness, which is a combination of Self-respect and Passion-respect. It forms the Synchronicity-interactive Attitudinal Feeling or Nature of Mutual Respect.

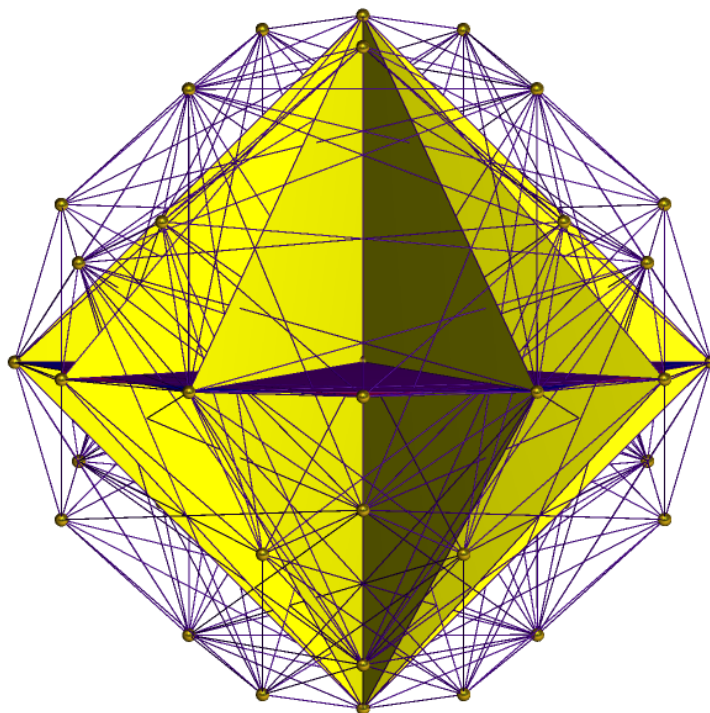

Synchronicity-interactive Attitudinal Feeling is formed by a fusion of three interactive Attitudinal Feeling designs of Nature, or two Awareness-based Feeling designs of Respect.

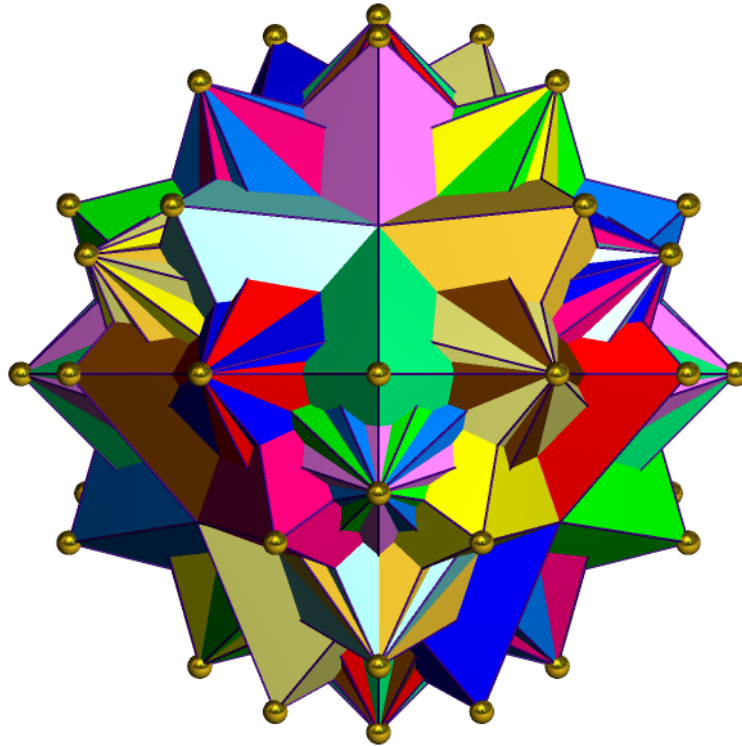

This shows the emotional Intellect planes (in yellow) and emotional Dodecagon planes formed by the Love-based Sense-agreements of Passion (in blue) and Self-awareness (in pink). They form the *Mutual Respect of Peace-awareness* (shown below)

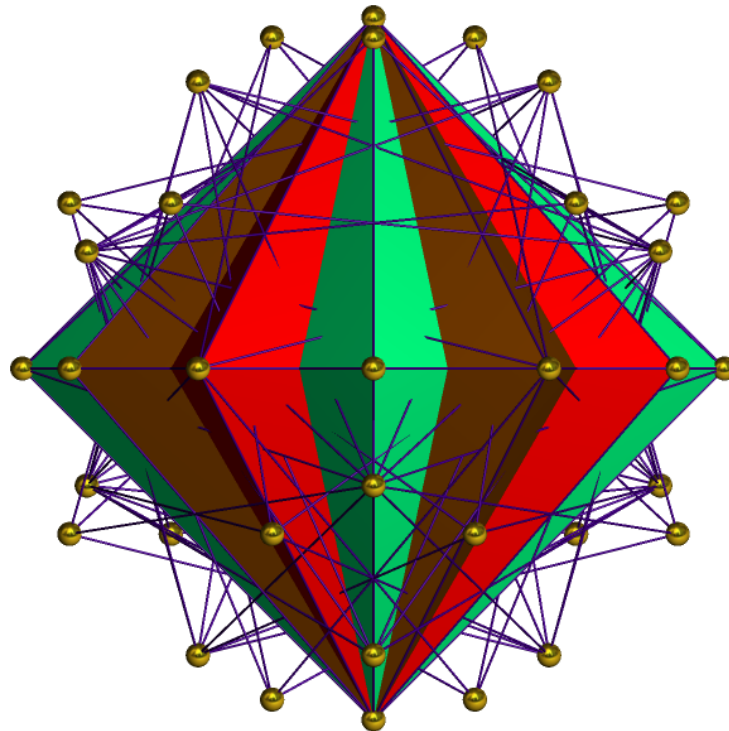

This shows an isolated Synchronicity-interactive Attitudinal Feeling design, which forms the Mutual Respect of Peace (below).

This shows the twelve Octahedrons of *Nature* formed by the fusion of Common Logic, Passion, and Self-awareness (below). They form the Nature of *Peace-awareness*.

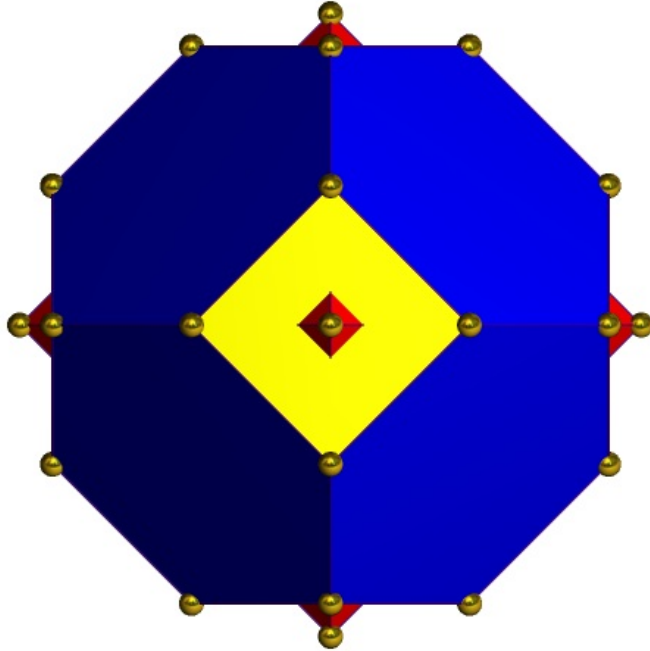

This shows three interactive Octahedrons of Nature that form the *Synchronicity-interactive Nature of Mutual Respect or Peace* (below).

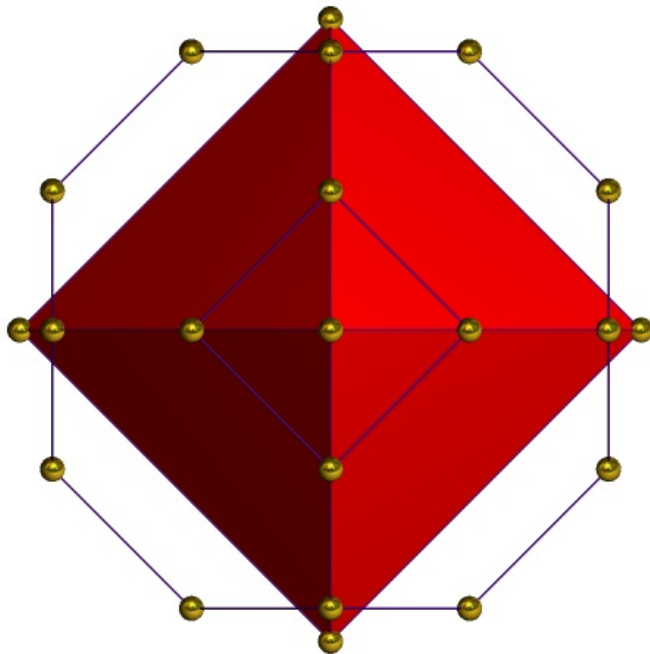

## Empathy

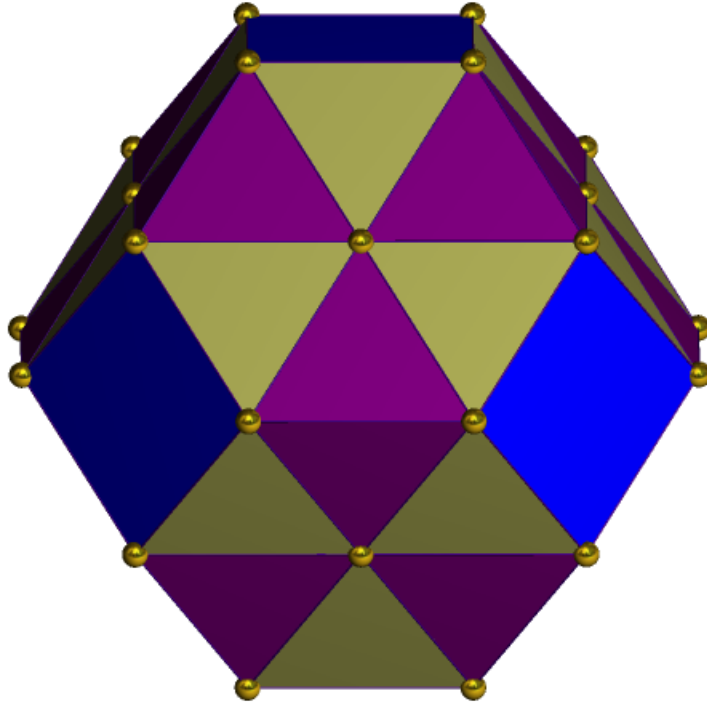

When Reason combines with the Attitudinal Feeling of Nature, it creates Empathy. This shows them combined.

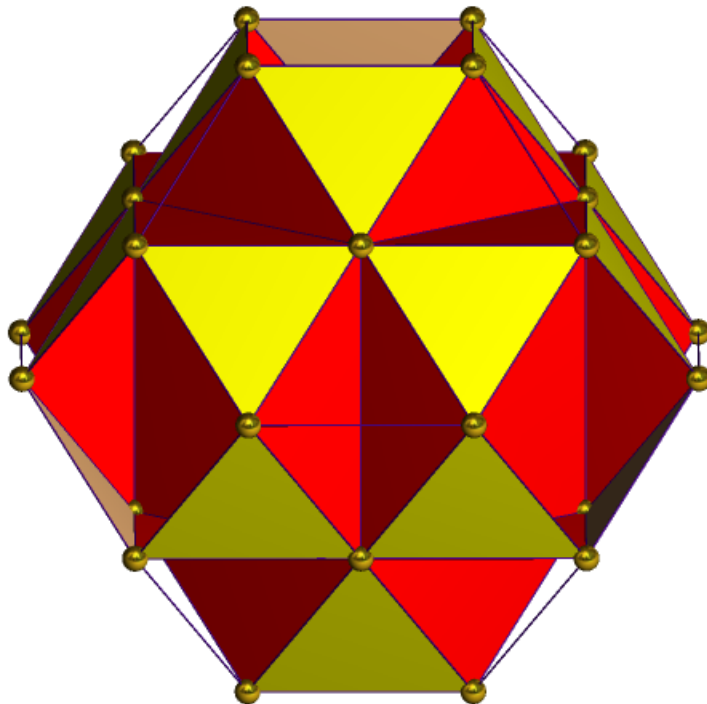

This shows the initial Attitudinal Feeling of Nature within Empathy.

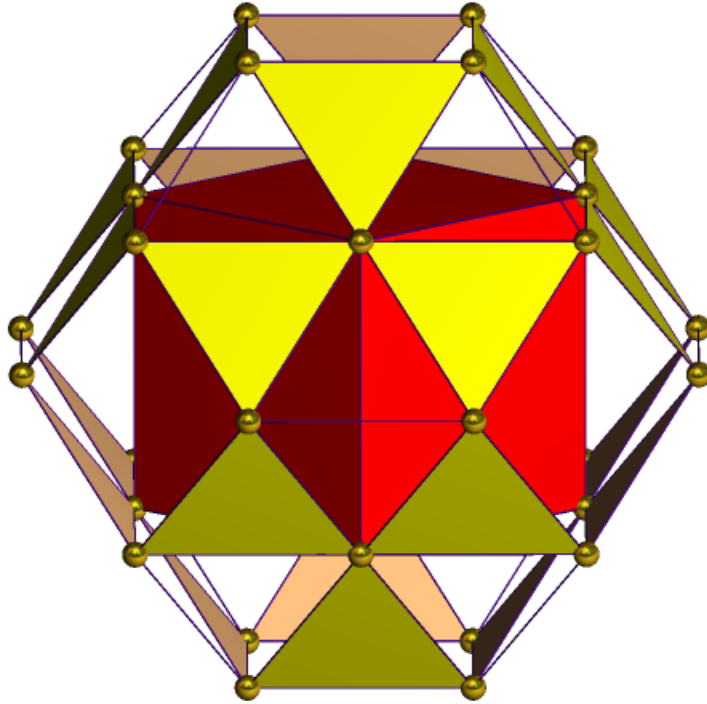

This shows the Physical Love-based Sense Agreements of Reason. It forms the Practical Awareness or Reason.

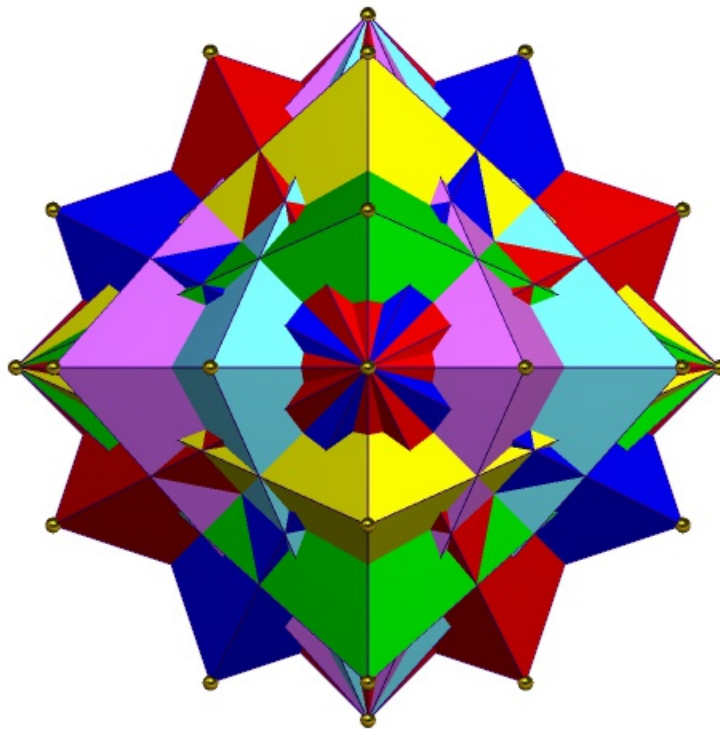

This shows the Practical Awareness of Reason detailed by Mental Intellect Agreements.

This shows a Cube of Common Logic created by the Love-based Sense Agreements of Reason. The Practical Awareness of Reason is an expression of Common Logic.

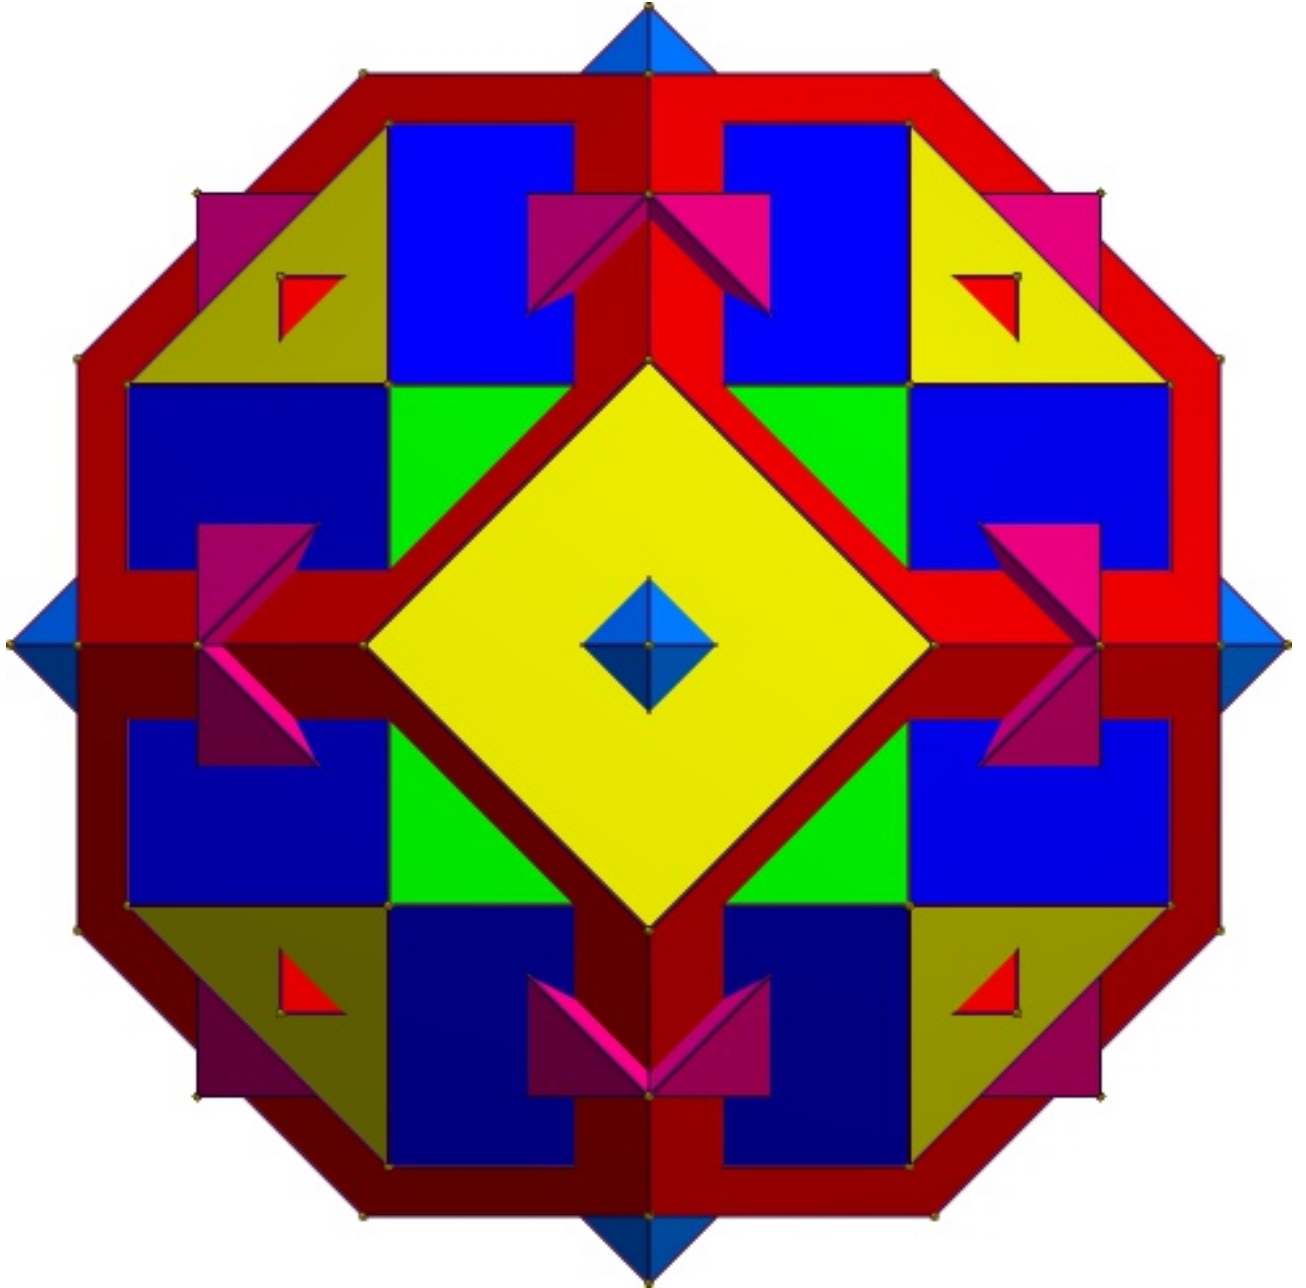

This shows a fusion of seven Octahedrons of Nature that manifest from combining Nature with Reason. It expresses the Attitudinal Behaviour or Nature of Empathy.

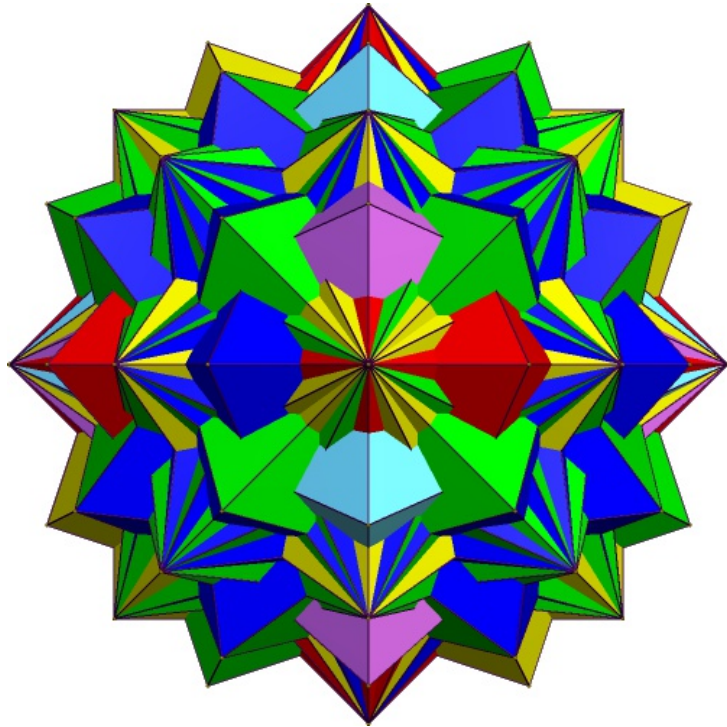

## Virtuous Peace

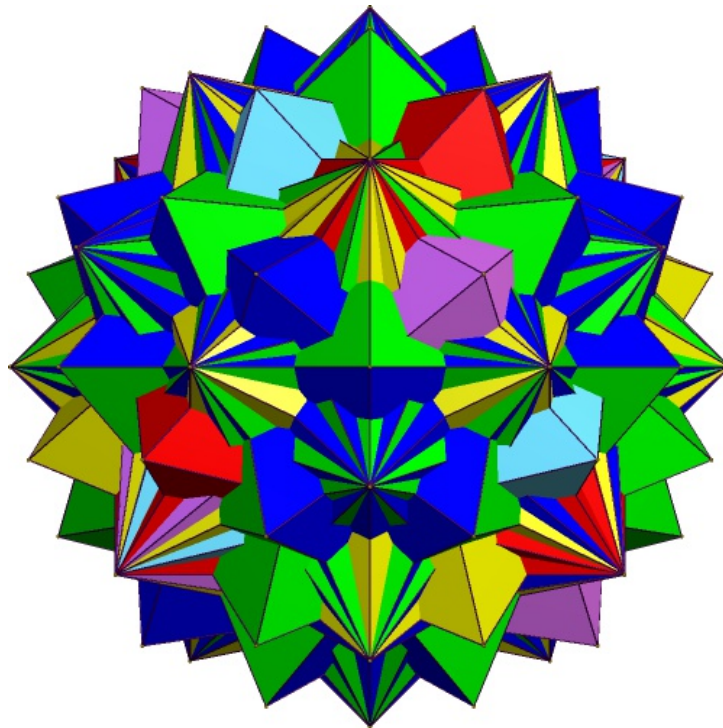

This shows the Principals of Moral Synchronicity that create Virtuous Peace (below). They are Self-awareness, Passion, Attitudinal Feeling of Nature, Reason, and Common Logic.

A fusion of Twenty-two Octahedrons of Nature manifests from the combination of Nature, Self-awareness, Passion, Reason, and Common Logic. They form the *Nature of Virtuous Peace*. This design (below) shows the Octahedrons of Nature in the axis of *Virtue*.

This design (below) shows twenty-two Octahedrons of Nature in the axis of Mutual Respect or *Peace*.

## Summary

We have already stated that Virtuous Peace replaces the former Guidance of Intuition. What else does it replace? It combines Common Logic, Attitudinal Feeling of Nature, Self-awareness, Reason, and Passion. Instinctual Respect is a Personal agenda-based Thought form and is a product of Common Logic, regulated by Love-based Sense-agreements. This creates a product of Personal agenda-based Respect. Virtuous Peace is a product of Respect and therefore replaces Instinctual Respect. Emotional Synchronicity transforms Respect into *Mutual Respect*.

Compassion is a Personal agenda-based Thought form and is a product of Self-awareness. One of the Principals of Virtuous Peace is Self-awareness. Virtuous Peace must replace Compassion. Respect transforms Self-awareness into *Self-respect*.

Personal Ambition is a Personal agenda-based Thought form and is a product of Passion, which is a Principal of Virtuous Peace. Therefore, Virtuous Peace must replace Personal Ambition, which initiates Personal agenda-based pleasure. The Synchronicity of Virtuous Peace transforms Passion into a Mutually Respectful pleasure.

Justice is a Personal agenda-based Thought form and is a product of Reason, which is a principal of Virtuous Peace. Nature and Reason combine to create a Nature of Empathy.

Is this a simplified state of Awareness that replaces all aspects of Personal agenda-based Consciousness? Emotional Synchronicity has a Universal influence, and is a product of Love, Awareness, Intellect, and Creative Thought. It therefore coordinates all products of Intellect and Love, which include Nature, Common Logic, Passion, Reason, and Self-awareness.

Virtuous Peace is also a product of Emotional Morality, which is Interactive Intellect. Emotional Morality, which Suggests Experiential Judgement, is coordinated through Synchronicity.

All this is possible because Emotion is a Universal connection between all aspects of Mind. Therefore, all expressions of *Pure Potential* will be Morally and Respectfully coordinated.

*Pure Potential* has determined these changes to be necessary. This is the next stage of Evolution that will affect all, and effect the changes to all. Everything that we are now experiencing is the process of change in its adjustment stage. It isn't something to Fear, but rather to Exalt.

PEACE will be the ultimate reward – **Physical Entities Accepting Connected Experience**.
